

Aqua-Add Thickener S

8124

Thickener for water-based 2C furniture paints and varnishes, **for industrial use.**

PRODUCT DESCRIPTION

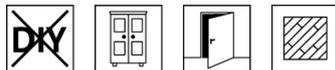

Product numbers

8124090201

General

Special solution to thicken water-based 2C furniture paints and varnishes. Rapid build-up of viscosity with no reduction in the pot life of the paint or varnish system. The product does not affect the surface quality of the paint or varnish system (chemical and mechanical resistance).

Application area

Additive for water-based, two-component paints and varnishes for furniture and interior design

PROCESSING

Processing instructions

- Please shake / stir the product before use.
- The temperature of the product and object, and the room temperature must be at least + 15 °C.
- Mix Aqua-Add Thickener S (8124) carefully into the paint/varnish while stirring continuously.
- Strong thickening effect.
- The drying behaviour of the coating system is not affected by the addition of Aqua-Add Thickener S (8124).
- Paints/varnishes that have been mixed can be used as explained in the relevant technical data sheet.
- Any change in the processing sequence, environmental conditions, non-observance of instructions or the use of products not listed may have an unfavourable effect on the result.
- Please follow our **ARL 150 - Working guidelines for water-based furniture coatings.**
