## Technical data sheet

Clean-Opti B&P 7236

**Cleaning solution** for **conveyor belts and material lines** in industrial coating plants, for dried-on residues of water-based paints and varnishes, for use in industry

	PRODUCT DESCRIPTION
Product numbers	7236000210
General	Cleaning solution with good dissolving power for dried-on residues of water-based paints and varnishes, predominantly for use in industrial settings. Suitable for filling conveyor belt washers (has a long lifespan), recommended for cleaning conveyor belts and rinsing material lines (belts and pipes). The VOC content can be reduced by mixing with water.
Application area	Cleaning of spraying machines, material-carrying lines in coating systems and transportation belts when working with water-based coatings.  Cleaning fluid for filling belt washers.
	PROCESSING
Processing instructions	<ul> <li>The temperature of the product and object, and the room temperature must be at least + 15 °C.</li> </ul>
+15°C	<ul> <li>After cleaning spraying equipment such as cup guns or airless sprayers, rinse them with water.</li> </ul>
	The product is ready to use.
	<ul> <li>Any change in the processing sequence, environmental conditions, non- observance of instructions or the use of products not listed may have an unfavourable effect on the result.</li> </ul>
	ORDERING INFORMATION
Size of trading unit	25 l, 120 l and 600 l
	FURTHER DETAILS
Durability / storage	Min. 3 year(s) in the original sealed containers.
	Make sure the product is protected against moisture, direct sunlight, frost and high temperatures (above 30 $^{\circ}\text{C}$ ).
